Tangerang Selatan, Banten

I am an enthusiastic and dedicated undergraduate student at the School of Electrical Engineering and Informatics (STEI) of Institut Teknologi Bandung. With a strong passion for data science and analytics, I am committed to leveraging my skills and knowledge to drive insightful and impactful data-driven solutions. I am eager to contribute to innovative projects and continuously expand my expertise in the dynamic field of data science.

Education Level

Institut Teknologi Bandung - Bandung

Aug 2023

Undergraduate School of Electrical Engineering and Informatics - Computational, 3.88/4.00

SMA Labschool Kebayoran - Jakarta Selatan

Jul 2020 - May 2023

High School Diploma Mathematics and Natural Sciences

- Finalist of Onlimpiade Orbit 2023 - Piala Hasri Ainun Habibie (Sains)
- Gold medalist of Olimpiade Pelajar Sains Indonesia 2021
- Secretary of FnB division of SkyAvenue 2022, an annual artistic event, successfully attracted hundreds of audiences

Work Experiences

STEI ITB - Indonesia

Sep 2025 - Present

Database Laboratory Assistant

I supported the delivery of the Database Systems course by assisting lecturers during laboratory sessions, guiding students through hands-on SQL, relational algebra, and database design exercises. My responsibilities included preparing lab materials, supervising practical sessions and tasks, and evaluating assignments. I also provided academic support through consultations, ensuring students developed a strong conceptual and practical understanding of database fundamentals.

- Assisted in conducting weekly laboratory sessions for Database Systems.
- Guided students in implementing SQL queries, relational schemas, normalization, and ERD modeling.
- Prepared, refined, and maintained lab modules and instructional materials.
- Evaluated lab submissions and contributed to consistent, fair assessment.

Asa Kreasi Interasia - Indonesia

Feb 2026 - Apr 2026

Backend Engineer Intern

Asa Kreasi Interasia is a holding company that has Integrated Business Solutions and focuses on creative services and digital technology solutions.

- Developed and maintained a large-scale enterprise resource planning (ERP) web application using Java Spring Boot, JPA/Hibernate, JSP, jQuery, and MySQL, covering end-to-end business processes across multiple operational domains.

OSSera - California, US

Apr 2026 - Present

AI Engineer Intern

OSSera is at the forefront of delivering a new generation of Operational Support System (OSS), designed to simplify telecommunications network management and enable the construction of truly autonomous networks for operators globally.

- Using network performance data to predict the capacity utilization accurately for long term to support long term network planning

OpenWay - South Tangerang, Indonesia

Jun 2026 - Present

Software/QA Engineer Intern

OpenWay is a global payment software company, best known for its Way4 platform that powers card issuing, acquiring, and digital payment processing for banks, processors, and fintechs across more than 80 countries.

Organisational Experience

ITBJazz - Bandung

Mar 2024 - Present

Member

ITBJazz is a student organization at Institut Teknologi Bandung, consisting of students who share a passion for jazz music. Our members are dedicated to exploring and celebrating jazz through various activities, performances,

and collaborations. We aim to foster a vibrant jazz community within ITB, encouraging both musical growth and appreciation among our peers.

- Band manager for Jazzmosphere 2024, successfully attracted hundreds of audiences
- Staff of event division of ITBJazz Fellowship Night 2024

Himpunan Mahasiswa Informatika ITB - Bandung

Jul 2025 - Present

Member

HMIF ITB serves as a platform to develop students' academic, creative, and organizational skills through various programs, projects, and events.

- Staff of content and strategy

SPARTA HMIF ITB 2024 - HMIF ITB

Jun 2025 - Oct 2025

Deputy Chair for Materials and Methods Field

Supported the execution of SPARTA, the official cadetship program of HMIF ITB attended by more by participants. Oversaw the development, structuring, and coordination of all training materials and methodological frameworks. Worked closely with the core committee to ensure content quality, learning flow, and alignment with organizational values. Contributed to strategic planning, documentation, and the delivery of the program.

- Designed and structured the official training materials and methodological frameworks for the program.
- Developed comprehensive assessment matrices to evaluate participant growth, engagement, and competency progression.
- Led and coordinated a team responsible for content creation, documentation, and delivery, and ensuring effective collaboration.

Skills, Achievements & Other Experience

- **MySkill Intensive Data Science Bootcamp (2022)**: Bootcamp engaged in live classes for an in-depth and practical learning experience, equipping participants for a career as a data scientist. The curriculum is crafted and delivered by expert tutors from leading companies in Indonesia.
- **IELTS (2022)**: Overall band score: 7.5
- **Data Academy Compfest 2024 (2024)**: Intensive, month-long academy designed to guide selected participants into the world of data science and analytics. After the selection process, I engaged in a series of workshops, mentorship sessions, and collaborative learning activities. Throughout the program, I worked on a real-world data project, applying what I have learned to solve practical problems. The journey ends in a final pitching session, where me and my team present our projects and insights to a panel of judges, showcasing both our technical skills and creative thinking.
- **Data Analysis Dash Compfest 2025 (2025)**: Competed as part of a team in a national-level data analytics competition with hundreds of initial participants. The preliminary round involved solving advanced SQL challenges, from which only the top 15 teams advanced to the finals. In the final round, my team built an end-to-end analytical dashboard to derive insights and present data-driven recommendations. Achieved 6th place nationally.
- **Data Mining Gelatik 2025 (2025)**: Represented ITB in the GELATIK Data Mining competition, creating a multimodal deep learning model to detect online gambling ads by combining IndoBERT (NLP) and ResNet50 (CV) using an ensemble learning approach to analyze both text extraction (OCR) and visual patterns.
